

Grant Guidelines (General Fund)

The purpose of the Trust is to provide grants to support organisations/activities operating throughout Birmingham and Redditch. An Application Form can be obtained via the Birmingham Community Foundation's website www.bhamfoundation.co.uk or by telephoning the Birmingham Community Foundation's Office 0121 322 5560.

Criteria

The Trustees are keen to receive applications from voluntary/community organisations that are able to demonstrate their project will bring benefit to the local community and in doing so meet at least one of the objectives listed below:

- ⊙ To enhance the education and skills of local people, particularly the young
- ⊙ To assist communities in local regeneration programmes
- ⊙ To protect and improve the local environment
- ⊙ To support the improvement of sports and leisure facilities
- ⊙ To celebrate and promote the cultural diversity of the City of Birmingham.

Preference will be given to projects or events promoting individual and community development, education and recreation for local residents.

How much can you apply for?

We do not usually give more than £10,000, and you should be aware that the normal amount would be in the region of £2,500 –£5,000. Only a one-off grant will now be available as funding ceases at the end of 2009.

Who can apply?

Any charity, voluntary organisation, or community group throughout Birmingham and Redditch.

We are currently unable to provide funding for:

- ⊙ Applications from large national charities (except where the local branch applies for their 'local' work)
- ⊙ Student costs or educational fees
- ⊙ Organisations and individuals in the promotion of political or religious ideology

Donations in aid of general appeals or to provide for an organisation's core costs are also unlikely to receive support.

Application should be made via an Application Form that can be downloaded via the Birmingham Community Foundation's website www.bhamfoundation.co.uk or via the contact details below.

Trustees meet quarterly to review applications.
